The Council approved the minutes from the fourth session of the Council.

2. UPDATE FROM THE DIRECTOR-GENERAL

a. Observations from the Director-General

The Director-General identified four key elements to GGGI’s building process: 1) the development of a robust strategy that has the full buy-in of Members; 2) a coherent and efficient organizational model tied to the strategy; 3) strengthening the organization’s financial base through the creation of a financial reserve, increasing membership and identifying opportunities for targeted financing; and 4) strengthening the level of engagement from Members, particularly from high levels of government.

The Director-General informed the Council that the Secretariat is working to host an event on the occasion of the UN Climate Summit in September 2014, bringing together Heads of State to issue a declaration on green growth and climate change. He added that an event is also being planned to be held in conjunction with the Assembly and Council session in November 2014 and at the COP 20 in Peru in December.

The Council supported the initiatives identified by the Director-General and welcomed the idea of issuing a declaration among Heads of State at the UN Climate Summit.
