

Global Green Growth Institute

Third session of the Council

Songdo, 8-9 June 2013

Update on the Joint Donor Review

The first meeting of the GGGI Donor Consultation Group (DCG) was held 14-15 February 2013. Among the items discussed was the envisaged second Joint Donor Review of the GGGI.

The main focus of the review will be on the GGGI's Green Growth Planning and Implementation Programs (GGP&I). This includes: (1) current strategies and approaches; (2) implementation; (3) procedures for management, implementation and monitoring; (4) linkages with GGGI's Research and Public-Private Cooperation activities; and (5) governance and partnership frameworks.

Australia, Denmark, the Republic of Korea and Norway will participate in the review, which is expected to take place during the first two weeks of September 2013. In the first week, the review team will visit the GGP&I Programs in Cambodia and Ethiopia. In the second week, it will meet at GGGI Headquarters in Seoul for joint reporting and discussions with the GGGI and GGGI donors.

The main output of the review will be a note summarizing the findings and recommendations of the team and will provide guidance on strategies and approaches for GGGI programs.
