Information Area	Status	Publication date	Exclusions & Thresholds	Exclusion category	Data provider definition	Publication notes
Identification						
Reporting Organisation	Fully compliant	Dec-18		n/a (No exclusions)	Organisation information	GGGI organisation identifier number: XM-DAC-47136 confirmed by IATI Secretariat
IATI activity identifier	Fully compliant	Dec-18		n/a (No exclusions)	Project number	Budget code for each Program/Project
Other activity identifiers	Unable to publish			a) Not applicable to organisation		This applies if another organisation will be reporting to our organization
Basic Activity Information						
Activity Title (Agency language)	Fully compliant	Dec-18		n/a (No exclusions)	Project name	The name of the project or programme we are reporting in the organisation's language of use.
Activity Title (Recipient language)	Unable to publish			a) Not applicable to organisation		We are not publishing another name of the project in the language that, for example might be spoken in the country where the project is being implemented.
Activity Description (Agency language)	Fully compliant	Dec-18		n/a (No exclusions)	Project long description	The description of the project or programme we are reporting in the organisation's language of use.
Activity Description (Recipient language)	Unable to publish			a) Not applicable to organisation		We are not publishing another description of the project in the language that, for example might be spoken in the country where the project is being implemented.
Activity Status	Fully compliant	Dec-18		n/a (No exclusions)	Whether the project is being implemented or closed.	This indicates whether the project is in the planning stage, if it is being implemented, or whether it is closed.
Activity Dates (Start Date)	Fully compliant	Dec-18		n/a (No exclusions)	Date of first transaction on the project	The date of when the project starts (either planned or actual).
Activity Dates (End Date)	Fully compliant	Dec-18		n/a (No exclusions)	Planned date for the project to finish or actual end date for closed projects.	The date of when the project ends (either planned or actual).
Activity Contacts	Fully compliant	Dec-18		n/a (No exclusions)	All information for the team running the project.	
Participating Organisation (Funding)	Fully compliant	Dec-18		n/a (No exclusions)		Name of the countries/organizations providing the funds.
Participating Organisation (Extending)	Unable to publish			a) Not applicable to organisation		Applicable to Government entity using funds from its own budget (for example, DFID would be the extending organisation for the UK).
Participating Organisation (Implementing)	Fully compliant	Dec-18		n/a (No exclusions)	The organisation implementing the project	Organisation who is carrying out the project - GGGI
Participating Organisation (Accountable)	Fully compliant	Dec-18		n/a (No exclusions)		Organisation who is ultimately accountable for the implementation of the activit - GGGI
Geopolitical Information						
Recipient Country	Fully compliant	Dec-18		n/a (No exclusions)	Country where the project is being run	This captures the country where the activity is taking place
Recipient Region	Fully compliant	Dec-18		n/a (No exclusions)	Region where the project is being run	This captures the region where the activity is taking place.
Sub-national Geographic Location	Fully compliant	Dec-18		c) Not currently captured and prohibitive cost	District, province and village of the project	This enables reporting of geographic location of projects below the regional or country level. It is possible to report provinces, districts and also longitude and latitude information.
Classifications						
Sector (DAC CRS)	Fully compliant	Dec-18		n/a (No exclusions)	Activity covered under, in accordance with the DAC CRS Sector codes	The sector or sectors that the activity is covered under, in accordance with the DAC CRS Sector codes. It is only necessary to report one type of sector - either CRS or organisation specific.
Sector (Agency specific)	Future Publication			n/a (No exclusions)	Sector or sectors the activity is working on, and the percentage split.	The sector or sectors that the activity is covered under, according to an internal or other pre-existing set of sectors. It is only necessary to report one type of sector - either CRS or organisation specific.
Policy Markers	Fully compliant	Dec-18		n/a (No exclusions)		This enables organisations to track key policy issues such as gender through their activities, but is unlikely to apply to NGOs.
Collaboration Type	Unable to publish			a) Not applicable to organisation	e.g. Bilateral or Multilateral contributions made to a recipient institution	This is unlikely to be relevant for NGOs as it is more for donor reporting. For example, DFID would report a collaboration type for providing core contributions to NGOs.
Default Flow Type	Fully compliant	Dec-18		n/a (No exclusions)	e.g.ODA, grant, etc.	Type of resource flow that is being made.
Default Finance Type	Fully compliant	Dec-18		n/a (No exclusions)		This is likely to only be relevant to bilateral and multilateral donors, and refers to the financing mechanism that is used for this activity.
Default Aid Type	Fully compliant	Dec-18		n/a (No exclusions)		For NGOs this is likely to be C01 (project type interventions)
Default Tied Aid Status	Fully compliant	Dec-18		n/a (No exclusions)		This field is only applicable to bilateral and multilateral donors. We can mention that it is Untied.
Financial						

Activity Budget	Fully compliant	Dec-18		n/a (No exclusions)
