

Blue Skies & Net-Zero 2050 Campaign

Launched by **GGGI** & the **Climate Change Center**, the Campaign serves as a platform to bring businesses, civil society organizations, youth groups, & embassies together **to support governments** to achieve **net-zero emissions pledge and scale up its ODA**.

OBJECTIVES

The Campaign was initially launched with the aim of promoting the importance of **climate action** in the Republic of Korea. Our next step is to widen the **circle of partners** and forge stronger linkages with **global networks**.

“Building on the success of the Campaign, I am confident that the co-Secretariat will continue to widen its reach and attract new partners by driving a campaign at a **global level**.”

President & Chair of GGGI & Eighth Secretary-General of the United Nations –
Mr. BAN KI-MOON
